## Media Release

### WWRC Foundation Board Holds Strategic Session

Fishersville, Virginia - The Woodrow Wilson Rehabilitation Center Foundation, Inc. recently held a Board of Directors retreat for the purpose of developing a 3 year strategic plan. The strategic planning session was conducted by Mr. Len Doran of the Wexford Group, an international consulting firm specializing in non profit organization operations.

Mr. Hiawatha Nicely, Jr. Board President, called the session an extraordinary success. He said that the Foundation's strategic plan was developed to dovetail with and complement the Woodrow Wilson Rehabilitation Center's "Blue Print for Success".

The plan addresses the vision, mission, values, goals and objectives of the Foundation with specific emphasis on fund raising and development, board member selection and development, community relations, and management capacity.

The WWRC Foundation is a 501(c) 3 not for profit organization that operates to serve the clients, customers and patients of the Woodrow Wilson Rehabilitation Center, [www.wwrc.net](http://www.wwrc.net) a state owned comprehensive medical/vocational rehabilitation center operated by the Virginia Department of Rehabilitative Services. The center provides services annually to approximately 3000 Virginians with disabilities at its campus located in the Shenandoah Valley between Staunton and Waynesboro Virginia.
